

Abstract of the Disclosure

Cookware with Undulating Cooking Surface

5 An article of cookware has a base with an upper cooking
surface (8) on which food to be cooked is placed, which
surface is provided with a regular pattern of concentric
corrugations (10) in the form of ridges (12) and grooves
(14) therebetween wherein the ridge (12) to ridge (12)
10 spacing is in the range of 2.3mm to 2.8mm and the
vertical distance of ridge (12) top to groove (14) bottom
is in the range 0.05mm to 1.5mm.
